## Ensayo 3: Layer upon Layer (Christo and Jean-Claude / Shunk and Kender / Sotillo)

In 1972, Christo and Jeanne-Claude installed *Valley Curtain*. Harry Shunk and János Kender immediately photographed it, and their shots were used in various documentary materials: posters, postcards, and a book issued by Museo de Bellas Artes de Caracas and designed by Álvaro Sotillo. The memory of this piece has been kept alive through these materials, which combine several layers of authorship.

Terranova is pleased to invite you to visit this micro-exhibition, curated by Mela Dávila Freire, which will be on from Friday, March 10 to Saturday, April 8, 2023.
